The 2nd International Conference on Numerical Modelling in Engineering will be held from August 19 to 22 in Beijing, China. The overall objective of the conference is to bring together international scientists and engineers in academia and industry in fields related to advanced numerical techniques, such as FEM, BEM, IGA, etc., and their ...

With a growing need for improvement in the quality of life, and global average life expectancy rapidly rising, there is an increasing demand for efficient health care systems. Combining the design and problem-solving skills of engineering with medical and biological science, biomedical engineering i

This review focuses on direct numerical simulations (DNS) of turbulent flows laden with droplets or bubbles. DNS of these flows are more challenging than those of flows laden with solid particles due to the surface deformation in the former.

International Journal of Engineering Research and Applications (IJERA) is a team of researchers not publication services or private publications running the journals for monetary benefits, we are association of scientists and academia who focus only on supporting authors who want to publish their work.

Computational Research Progress in Applied Science & Engineering: An international Journal (CRPASE), ISSN: 2423-4591 is a multidisciplinary peer-reviewed journal founded in 2014 and devoted to the prompt publication of peer-reviewed articles related to all aspects of computational methods in applied science and engineering.

CRPASE

Computational and Mathematical Methods in Medicine publishes research and review articles focused on the application of mathematics to problems arising from the biomedical sciences. Areas of interest include gene therapy, cell kinetics, pharmacokinetics, chemotherapy, oncology, developmental biology, wound healing, physiology, heart modelling ...
